and more TBA!

Crystallization is a two-day indoor electronic music festival set in Colorado, fusing music, art, sustainability and Mother Nature. The event will feature two rooms of music and more than sixteen electronic acts from local favorites to the top nationally touring bands and dj's. It's a full costume and themed event!

Details to be announced soon.

A portion of all proceeds from this event will go to the Rocky Mountain Sustainable Association.

The event will feature several world famous live painters both nights including Kris D, J Garcia, and Michael Garfield. J Garcia and Kris D are currently working on a collaborative 3-D concert poster to be sold for charity at the event. 100% of the proceeds from this poster will benefit the Rocky Mountain Sustainable Living Assoc.

Cervantes Masterpiece Ballroom and a second stage in Quixote's will feature non-stop music all night. The Quixote's venue will also be filled with crystal displays, glass displays, art galleries, clothing sales, political action

tables, and sustainable living information booths and vendors.

ZeroHero will be at this event, making sure all the cups and trash we generate are composted or recycled while informing fans about helping the environment and living green. We will also be taking steps to offset any impact we have on the environment from our event - by the CO2 created from people traveling to the show and the trash we generate – we will make an effort to offset as much as humanly possible.

The Kaivalya Hoop Dancers will be in attendance along with other dance groups. They will be doing hoop dancing, poi dancing, shadow dancing, etc. They have some very special surprises in store for our guests both nights.

We look forward to having you join us this fall for the first Rocky Mountain Crystallization Festival!

See you soon...
